## About PROPTA

The Personal Trainers Association was founded in 1980 by **Joe Antouri** "Mr. USA", and provides an impeccable certification credential that is highly respected and recognized by the State of California

and in the fitness industry with more experience and Practical knowledge than elsewhere or other organization. PROPTA is Accredited, Approved, Endorsed and Recognized Worldwide by many colleges and Universities in 5 languages. Currently PROPTA is present in over 183 countries.

PROPTA has introduced the 1st MMA hands on Certification course in the world that is led by professional athletes, UFC and MMA competitive Fighters.

*PROPTA is the Official Certification of the National Fitness League, Officially Endorsed by the IFBB PRO League Worldwide & MMA Official Certification Authority. Approved by GI Bill, the BPPSVE and CSAAVE.*

In 1980, there were very few personal trainers roaming the clubs. The club owners and professional athletes were considered the elite in physical fitness. This is when PROPTA was established by the PROS. Fitness and bodybuilding was considered an unconventional sport, who knew those days would turn the whole world around to make such a huge impact and become a multi billion dollar industry. Bodybuilding and Nutrition was and still is a specialty. Not every personal trainer that is certified is qualified to perform and obtain results.

PROPTA will make sure that every student will be supported to successfully achieve their goal and have a successful career and business.

Whether you want to work for yourself, a club or a company, knowledge and understanding of proper application and proper biomechanics is very important to you and your business. Personal Fitness trainers are the future of this world and they're being recognized as the driving force behind health and prevention for all ages.

There are limitless resources of new clients and new information every minute of the day, as long as you, the trainer is willing to do the work and grow your business. Commitment to success does not come easy, and earning the personal fitness certification is not easy either.

Weekend seminars or online course will never allow anyone to succeed, and neither by obtaining a piece a paper that indicates that you are certified.

# Specialty COURSES

## Nutrition

Nutrition science investigates the metabolic and physiological responses of the body to reach and maintain proper health. With advances in the fields of molecular biology, biochemistry and genetics, the study of nutrition is increasingly concerned with metabolism and metabolic pathways.

The human body contains chemical compounds that need to be monitored for optimum results.

As a Personal trainer, Nurse, Doctor, Coach, it is a must to include nutrition with every program you offer to clients. Without nutrition, the clients will never reach the set goals and will be stagnate forever.

PROPTA professionals know best how to get and stay healthy. Maintaining a proper education is crucial to maintaining a healthy business and a healthy client.

PROPTA offers 5 levels of courses for nutrition as a specialty. Starting with level 1 as a basic understanding of the basic elements for nutrition - then advancing to other levels will set the ground for a successful and professional presentation to work with professionals like doctors and professional athletes of all kinds even kids.

On going support is always available even after graduation for a more competent and secure position.

PROPTA offers 5 levels of nutrition:

Nutrition Tech, Consultant, Supplementist, Supervisor, Specialist CNS®

# Nutrition Courses

## Nutrition Tech™

The First step in learning the functions and understanding the body digestive system is enrolling in the Nutrition Tech Certification course. The basic elements that you thought you understood, will be explored and dealt with on a day to day basis. This course is a must for all personal trainers to obtain an understanding of Human Nutrition to help set realistic goals.

## Nutrition Consultant™

This Certification course provides students with a grounded approach to working with primary care providers to design diet and nutritional programs for athletes and work with primary care providers to help patients with previously diagnosed injury or illness. Appropriate findings and metabolic assessments are introduced to enable students to be more targeted in educating clients on appropriate therapeutic foods, supplements and nutrition

## SUPPLEMENTIST™

This Certification course provides students with the knowledge about Vitamins, Minerals, Herbs, Supplements and introduces the importance of Drugs and Vitamins interactions combinations. A must for every nutritionist wishing to deal with consumers on all levels.

# CNS\* Nutrition Supervisor™

This Certification course is required to insure the cumulative education and knowledge obtained from the Nutrition Tech, Consultant and Supplementist Certification courses. Supervisor course will sum up and revisit all the elements needed to proceed to the CNS\*® Certified Nutrition Specialist® level.

# CNS\* Nutrition Specialist®

Certified Nutrition Specialist CNS\*® will develop dietary programs and supervise the preparation and service of meals in hospitals, clinics, Fitness Centers and private homes that serve patients in need for proper nutrition.

Nutritionists with specialized training and experience often seek a Certified Nutrition Specialist CNS\* credential to emphasize their Elite additional skills in their field.

PROPTA issues the credential to nutritionists who meet a set level of experience, knowledge and skills. Attaining this certification will allow professionals an additional level of format recognition that supersede all prior levels. Experience and passing an extensive examination and clinical application is required above the required education. Qualifications will depend on the advanced degree in nutrition or prior nutrition certification courses offered by PROPTA or others with over 5 years of hands on experience.

Advanced degree is required but not limited to MD, ND, DC, DPM, DDS, OD, DPT, Pharm. D, RN, NP, PA and Athletes with a Nutrition Degree.

Enrolling in the PROPTA course curriculums you must start with the basic level - The Nutrition Tech™ course then Nutrition Consultant™ then Supplementist™ then Supervisor™ with experience and proper schooling to attain the Nutrition Specialist CNS\* status. Clinical hands on for all courses will be mandatory on all levels.

CNS® Certified Nutrition Specialist  
is a Registered Trade Mark owned by the PROPTA.

# Advanced Training

## Master Trainer™

To achieve the Master Trainer level, one must have a bachelor Degree in the field of human science from an accredited University, achieved the Professional level trainer status and 10 years of hands-on experience, this could also apply to all professional athletes from any sport.

Earning a certification will never be a qualification to becoming a Master Trainer, since education alone is not sufficient.

As a Master Trainer you are automatically inducted in the PROPTA Hall of Fame and you will be able to certify trainer worldwide. PROPTA will guide you thru the process of becoming a Director/ Examiner that will earn you money and improve your business.

Seminar speaking and educating students to becoming trainers will place you on a higher level from the rest of any trainer anywhere. PROPTA Master trainers teach at Universities and colleges around the world, educate and Certify anyone that is interested in becoming a PROPTA member.

## Hall of Fame

Master Trainers are automatically inducted in the PROPTA Hall of Fame. They will be featured on the website and recognized worldwide. Not anyone can be inducted unless they have the proper credentials and experience. The Hall of Fame induction is strictly the PROPTA decision on who should be awarded.

## Nutrition Certification course

As a personal trainer you must always know nutrition to help your clients reach their goals. This course blends nutritional science and clinical application to successfully guide you to help your clients. An understanding on what protein, carbohydrate, fats are and how the body process them.

## Group Dance & Fitness Certification course

As a personal trainer, having a broad understanding on fitness and cardiovascular training will definitely keep your clients from getting stale. This course will implement Group Dance, Fitness, Hip Hop, Latino, Jazz, Aerobic, High and Low impact. Workshop courses and lectures are available for a better understanding.

## Mix Martial Arts Certification course

Seeing your clients everyday will not improve their condition unless you apply different forms of exercise along with proper nutrition and weight lifting. Mix Martial Arts is booming now and PROPTA has the Elite MMA and UFC professional fighters along with many boxing and kick boxing world champions.

## Power Lifting Certification course

Incorporation Power Lifting will improve muscle density and metabolism. PROPTA Power Lifting is not for everyone. This course will be taught by professional power lifters and world champions. Practical application is a must for a safe and better understanding .

## Senior Fitness Certification course

Each Year scientific evidence accumulates to prove that Fitness and weight lifting is a crucial element in senior health. The demand is high for qualified and certified personal trainers. This course implements strength training, balance, coordination, flexibility and nutrition.

## Youth Health and Fitness Certification course

A new perspective in elementary physical education and proper nutrition for a strong and healthy growth along with education that will last a life time. As a personal trainer this course is unique since you will be dealing with youth and young adults.

## Boxing Fitness Certification course

To improve cardiovascular fitness and add confidence along with balance, speed, agility and quickness, boxing is the perfect sport to implement as an exercise. Not to mention Fat reduction. Get Certified by the Professional Boxers with many years of training.

Clinical hours could be obtained from as many directors at anytime, for variety and different views for a well rounded understanding of the course.

PROPTA clinical hours are also mandatory and must be done prior to obtaining any certification even if you have passed your written and practical exams.

Clinical hours are free as part of all PROPTA courses. Practical application is the key to success. Anyone can pass a written exam or an online exam. Let's see what you can do.

# The PTA™ Apprenticeship Program

## Learn, Earn and Succeed \$\$\$

The PTA™ “Personal Trainer Apprenticeship” is a combination of on the job training and related classroom instruction in which personal trainers and nutritionists learn the practical and theoretical aspects of a highly skilled occupation. Apprenticeship programs are sponsored by joint employer and labor groups, individuals employers and/or employer associations.

Employers include fitness centers, nutrition stores, diet centers, doctors offices, schools, colleges, Universities, government recreation and parks, professional personal trainers, dietitians and hotels.

Applicants must satisfy the employer sponsor and have the ability, aptitude and education to master the rudiments of the occupation and complete the related instruction required in the program and finally pass and get certified.

## Internship for CEUs

CEU's “Credit Education Units are required and can be obtained also by interning. The Personal Trainers Association has implemented this new program for students that like to get hands on training while learning from the PROS. Students can attend and observe and even get involved in assisting the PROPTA director, a professional athlete with their clients.

Gain knowledge and learn proper biomechanics hands-on from the PROS. That's what PROPTA is all about. That's why PROPTA is unique and different from all the rest.

## Skype Certification courses

Become a Certified Personal Trainer or a Nutrition Tech from any country. Start anytime with One on One or Group lectures and Real Practical Via the convenience of SKYPE.

This is NOT a taped lecture, it is the real One on One or Group real time classes at your convenience. Live lectures and real time communication that can enhance the learning experience from around the world.

Meet the PROS behind the books and experience face to face learning and practical application instantly over SKYPE.

## Food Handlers Certification

The food handlers permit is not only for people dealing with food preparation but for everyone that deals with food on a daily basis, that's the whole world. Everyone does prepare and eat food of course, but not everyone understands the proper way to prepare food to avoid contamination.

Personal trainers and Nutritionists deal with clients and their food all the time. Clients will benefit as much as the personal trainer from proper food preparation. As a trainer, don't you want your client to be healthy and show up to all training session and attain results all the time?

At PROPTA, food handlers certification is mandatory to all students and must be obtained prior to receiving the certificate.

# Tuition, Testing, and Course Completion

Course tuition includes all required textbooks, study guides, examination, practical application and ongoing educational support by e-mail or by phone appointment.

For Home course and online course study you have 90 days from the date of enrollment to fulfill the course requirements. A fee will be applied for late exams or re-instatement of any course.

Once you completed the course you will be issued your certificate and a wallet identification card. PROPTA certification is valid for two years and is renewable by completing continuing education either online or attending other available lectures, hands-on practical clinics, academy 3 or 6 week classes.

PROPTA provides many specialization programs and individual CEU courses that will help you advance and obtain a higher level status.
